STUART L. HENDRICKSON
PATENT EXAMINER

Art Unit: 1754

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Hanson on 1/14/04.

The application has been amended as follows:

Please cancel nonelected claims 2 and 7.

The following is an examiner's statement of reasons for allowance: The argument that the strong peak diffraction curve C is a feature of the claims is taken to require that this argued limitation be present in the claims. The argument that a strong peak is a result of alkali activation is not accepted because material B was made by alkali activation but shows a weak peak.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to examiner Hendrickson at telephone number (571) 272-1351.
